The following information is a part of Vera Baber's 40 year study of the Baber Family Worldwide. Vera's research has resulted in a well documented Family History for all of the English descended lines plus Australia; New Zealand; South Africa; Madras, India; Malaysia; British Honduras; United States of America. This is the pedigree of John Baber who died in 1527, the oldest documented person that names descendants through a Will named BABER. You will notice in this file that many early English Babers were a wealthy, influential, Somerset Family that enjoyed a privileged existence.

This John Baber has been thought to have two wives and from each a son named John. This file tracks what we believe are the descendants of this John Baber, his son from his first marriage. Y-DNA results indicate that they are the same person or closely related persons. To see the file of the other assumed of John Baber and a second wife named Isabelle: [\[Click Here\]](#)
