I can't find any evidence that my ancestor Robert Ratliff/Ratcliff b about 1696 is a child of Richard Ratliff and Mary Caterne. This is the reason so many people name him "Robert Anthony"? Am I to believe he and William are twins and he chose to call himself Robert all his life? Anybody with DNA matches?

Something has got a bit mixed up with two daughters named Lydia Ratliff (Ratliff-403 and Ratliff-1315) in the Robert Ratliff profile. It looks like Israel Lorton Sr's wife has been conflated with Lydia (believed to be a Ratliff but not proven) who married Israel Lorton Sr's son, Jacob Lorton. I have added more details in comments to the Ratliff-403 and Ratliff-1315 profiles.

[Ratliff-2165](#) and Ratliff-142 appear to represent the same person because: same name, same spouse, two children same, birth and death compatible
